Dear Parent...

Welcome to the ABC Animals Coloring Book. We hope you and your child enjoy the coloring pages to follow. You will find a different illustration for every single letter of the alphabet.

Would you like to give your child even more opportunities to become familiar with the alphabet? Then take a look at

www.happymommynews.com/ABCs

Not only will you get even more coloring pages and printables about every letter of the alphabet, but also worksheets, craft and activity ideas around the letter of the week and even a weekly audio – Alphabet Radio – that your child can listen to and learn more about that week's letter. It's a great way to prepare your child for Kindergarten.
